

PALM CAPITAL FUND

FUND FACTSHEET

PALM CAPITAL

30 June 2018

FUND OVERVIEW

This is a closed fund which consists of the savings of our shareholders. We invest these in exactly the same way we invest for our clients. This helps align our objectives.

Our aim is to preserve and grow the fund well above US inflation over the long term. This leads us to favour listed equities in developed markets. We choose only exceptional businesses with durable advantages run by exceptional managers. We patiently wait to invest when their prices are less than we think they are worth, aiming to benefit as they compound value over time. We only sell if fundamentals deteriorate or we find others offering potentially better returns.

We believe that this approach will allow us to earn higher returns than average businesses at lower fundamental risk over long periods of time.

We may also invest in property, bonds and derivatives if we think these will enhance our returns.
